AMENDMENTS TO THE CLAIMS

This listing of the claims will replace all prior versions and listings of claims in the application.

In the Claims

1. (Previously Presented) A device for paying out a bonus to a player playing a gaming machine comprising:

a gaming machine;

said gaming machine comprising a processor, wherein said processor implements a game of chance on said gaming machine, said game of chance paying off according to matching of symbols; or said gaming machine comprising a video poker machine, a video keno machine or a video bingo machine;

a dispensing unit comprising a numeric counter for counting the number of coins placed in said gaming machine and visually displaying to said player said number of coins;

said numeric counter continuing to count coins until a ticket is generated; said numeric counter resetting said counted coins to zero once a ticket is generated;

said dispensing unit further comprising a visual display showing a player number of coins needed to generate a ticket; and

said dispensing unit further comprising a ticket dispensing apparatus; said ticket being supplemental to a gaming award;

said numeric counter continuing to count coins from player to player until said dispensing unit dispenses a ticket.

- 2. (Original) The device of claim 1 wherein said dispensing unit is a sidemounted box attached to said gaming machine.
- 3. (Original) The device of claim 1 wherein said dispensing unit is placed inside said gaming machine.
- 4. (Original) The device of claim 1 wherein said dispensing unit is an add-on to any existing gaming machine and gaming device.
- 5. (Original) The device of claim 1 wherein said gaming machine includes video poker machines, video bingo games and video keno games.
- 6. (Original) The device of claim 1 wherein said dispensing unit is a self contained unit that does not affect play or outcome of said gaming machine.
- 7. (Original) The device of claim 1 wherein said numeric counter counts coin pulses off of said gaming machine's hard meter, and bonuses a player based on number of coins or pulses played.
- 8. (Original) The device of claim 1 wherein said numeric counter can count various coin denominations, e.g., nickel, dime, quarter or dollar slots.
- 9. (Original) The device of claim 1 wherein said ticket is a raffle, sweepstakes or lottery ticket.
- 10. (Cancelled)

- 11. (Previously Presented) The device of claim 7 further comprising; a remote unit for changing the number of coins necessary to generate said ticket.
- 12. (Previously Presented) A process for paying out a bonus to a player playing a gaming machine comprising;

placing coins in a gaming machine;

playing said gaming machine comprising a processor, wherein said processor implements a game of chance on said gaming machine, said game of chance paying off according to matching of symbols; or said gaming machine comprising a video poker machine, video keno machine or video bingo machine;

counting said coins players place in said gaming machine;

continuing to count coins with a numeric counter from player to player until a ticket dispenser dispenses a ticket;

showing said number of counted coins to said player;
showing said number of coins needed for a ticket to be generated;
dispensing said ticket when said number of counted coins equals said
number of coins needed for a ticket to be generated;

resetting said counted coins to zero once a ticket is dispensed;

having a drawing to determine a winner of a raffle, sweepstakes or

lottery, said drawing based on said tickets dispensed from said gaming machine.

- 13. (Original) The process of claim 12 wherein said counting of said coins is accomplished by counting coin pulses off of said gaming machine's hard meter, and dispensing a ticket based on number of coins or pulses played.
- 14. (Cancelled)
- 15. (Cancelled)
- 16. (Original) The process of claim 12 further comprising: generating a bonus prize from a percentage of total coins placed into all participating gaming machines.
- 17. (Cancelled)
- 18. (Original) The process of claim 12 further comprising: changing said number of coins needed to generate said ticket from a remote unit.
- 19. (Cancelled)
- 20. (Cancelled)
- 21. (New) The device of Claim 1 wherein said device does not count on played credits or dollar bills put into a bill validator.
- 22. (New) The device of Claim 1 wherein said device is linked to other devices wherein a combination of devices requires a certain number of coins before a ticket is dispensed.
- 23. (New) A device for paying out a bonus to a player playing a gaming machine comprising:
 - a gaming machine;

said gaming machine comprising a processor, wherein said processor implements a game of chance on said gaming machine, said game of chance paying off according to matching of symbols; or said gaming machine comprising a video poker machine, a video keno machine or a video bingo machine;

a dispensing unit comprising a numeric counter for counting the number of coins placed in said gaming machine and audio player telling said player said number of coins;

said numeric counter continuing to count coins until a ticket is generated; said numeric counter resetting said counted coins to zero once a ticket is generated;

said dispensing unit further comprising an audio player telling a player number of coins needed to generate a ticket; and

said dispensing unit further comprising a ticket dispensing apparatus; said ticket being supplemental to a gaming award;

said numeric counter continuing to count coins from player to player until said dispensing unit dispenses a ticket.
